🔗 [LinkedIn](#) | [GitHub](#)

Entry-level full-stack web developer skilled in JavaScript, PHP, and SQL. Experienced in developing responsive, database-driven web applications with a strong focus on usability, problem-solving, and attention to detail.

EDUCATION

Farmingdale State College, Farmingdale, NY

Bachelor of Science, Computer Programming & Information Systems — May 2025

GPA: 3.83

PROFESSIONAL EXPERIENCE

Technologist | *Aug 2025 — Present*

Kelm Media Group, Farmingdale, NY

- Developing responsive, user-friendly websites using HTML, CSS, JavaScript, and Bootstrap
- Improving UX through layout enhancements and accessibility considerations
- Implementing database-driven features using complex SQL queries and PHP
- Troubleshooting and resolving website issues to ensure functionality and accessibility
- Communicating with project leads to discuss feature progress and deliverables

Technologist Intern | *Jun 2024 — Dec 2024*

Kelm Media Group, Farmingdale, NY

- Collaborated with team members to design and develop five responsive websites
- Built user-friendly web pages using HTML, CSS, JavaScript, and Bootstrap
- Implemented database-driven features using PHP and SQL

PROJECTS

Developer Portfolio — Personal Project | *Oct 2025 — Present*

- Incorporating a Vite/React frontend, using TailwindCSS and Material UI for responsive interfaces
- Using MongoDB to store data on projects and skills
- Implementing data retrieval through TanStack Query and a RESTful API created using Express.js

TeleShow — Senior Project | **Farmingdale State College** | *Feb 2025 — May 2025*

- Collaborated in an Agile team of five to develop a web application that allows users to search for and view information on movies and shows
- Designed user-friendly interfaces through HTML, CSS, JavaScript, and React
- Utilized RESTful API calls and Cloud Firestore for database-driven features
- Wrote user stories and executed test plans to ensure feature functionality
- Contributed to comprehensive technical documentation

Stock Diviner — Software Engineering | Farmingdale State College | Feb 2024 — May 2024

- Worked alongside 3 other team members to create a joke stock predictor based on several factors
- Designed user-friendly interfaces for login, registration, and warning screens, using SceneBuilder to modify .FXML files
- Participated in prototyping and collaborated with team members on designing UML and sequence diagrams to model system behavior
- Used Java, including implementing input validation for user registration
- Communicated with team members through Discord and Zoom

DineConnect — Systems Analysis and Design | Farmingdale State College | Sep 2023 — Dec 2023

- Worked with 2 other team members to propose an idea for an information system aiming to streamline the gap between customers and restaurant owners
- Agile methodologies were used
- Created activity, entity-relationship, and state transition diagrams
- Wrote process descriptions involving pseudocode
- Produced Gantt, PERT, and CPM charts

RESEARCH EXPERIENCE

Understanding Web Frameworks — 2024 Summer Undergraduate Research Institute | Farmingdale State College | Jun 2024 — Aug 2024

- Conducted research on web frameworks (React, Angular, Vue, Node.js, etc.) under SUNY Farmingdale professor Dr. Tarik Eltaieb
- Analyzed scholarly articles, compared methodologies, and proposed future improvements

Creating a Cybersecurity Solution to Deal with Zero-Day Attacks — 2023 Summer Undergraduate Research Institute | Farmingdale State College | Jun 2023 — Aug 2023

- Participated in a high-intensity research experience, working under SUNY Farmingdale professor Dr. Tarik Eltaieb to determine components of an evidence-based cybersecurity solution suited for dealing with zero-day attacks
- Components of the proposed solution covered included data mining algorithms, detection models, and network intrusion detection systems

How the Growth of Artificial Intelligence Affects the Mental Health of the Unemployed Workforce — Sophomore Experience/Introduction to Research | Farmingdale State College | Feb 2023 — May 2023

- Created and presented a research proposal poster detailing how artificial intelligence replacing human workers affects the mental health of the unemployed workforce
- Conducted a literature review and based on that designed and proposed a method
- Done under RAM advisors Dylan Gafarian and Rita Gross

ADDITIONAL EXPERIENCE

President | Dec 2024 — May 2025; Vice President | Jun 2022 — Dec 2024

Backstage Theatre Company, Farmingdale State College

- Discussed semester plans with other BSTC officers
- Designed promotional materials for events using Canva

- As President:
 - Led club operations, collaborated with officers, and coordinated semester events
 - Managed event scheduling and communication with the organization's advisor

Usher | *Jul 2022 — Jan 2025*

Showcase Cinemas Broadway, Hicksville, NY

- Greeted customers, scanned tickets, and provided directions to theater locations
- Assisted customers with issues to ensure timely and high-quality service
- Trained new employees to support efficient team operations
- Collaborated with co-workers to maintain orderly environments
- Communicated with co-workers and managers in-person and via radio

AWARDS & GRANTS

Professional Growth Award, TRIO, Summer 2025

President's List, Farmingdale State College, Fall 2022 — Spring 2025

Latin Honors (Magna Cum Laude), Farmingdale State College, Spring 2025

SURI Scholarship, Farmingdale State College, Summer 2023

CONFERENCE PRESENTATIONS

POSTER

Ackerman, William, & Eltaeib, Tarik. *Understanding Web Frameworks*. Presented in-person on August 12, 2024 at Farmingdale State College's SURI Symposium

Ackerman, William, Gafarian, Dylan & Gross, Rita. *How the Growth of Artificial Intelligence Affects the Mental Health of the Unemployed Workforce*. Presented in-person on March 29, 2024 at Farmingdale State College's 2024 IGNITE Symposium

Ackerman, William, & Eltaeib, Tarik. *Creating a Cybersecurity Solution to Deal with Zero-Day Attacks*. Presented in-person on August 9, 2023 at Farmingdale State College's SURI Symposium, March 29, 2024 at Farmingdale State College's 2024 IGNITE Symposium, and on April 26, 2024 at Suffolk Community College's SUNY Undergraduate Research Conference

AFFILIATIONS

TRIO Leadership Council, Farmingdale State College, Sep 2024 — May 2025

Backstage Theatre Company, Farmingdale State College, Sep 2021 — May 2025

Research Aligned Mentorship, Farmingdale State College, Aug 2021 — May 2025

TRIO, Farmingdale State College, Aug 2021 — May 2025

Supporting Women in Computing, Farmingdale State College, Spring 2024

CERTIFICATIONS

Undergraduate Research and Experiential Mentorship Microcredential, 2024

CITI Program: Basic Social/Behavioral-Educational (Pedagogical) Research, 2023

RELEVANT COURSEWORK

Virtualization and Cloud Computing, Farmingdale State College, Spring 2025

Information Security, Farmingdale State College, Spring 2024

Programming in SQL, Farmingdale State College, Spring 2024

Software Engineering, Farmingdale State College, Spring 2024

Systems Analysis and Design (Writing Intensive), Farmingdale State College, Fall 2023

Web Database Development, Farmingdale State College, Fall 2023

Data Structures and Algorithms, Farmingdale State College, Spring 2023

Introduction to Database Systems, Farmingdale State College, Fall 2022

CORE SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React, Bootstrap, AJAX, jQuery, TailwindCSS, Material UI, Vercel

Backend: PHP, Node.js, Express.js, Render

Database: MySQL, MongoDB, Microsoft SQL Server, Cloud Firestore

Tools: Git/Github, APIs, Figma, Agile Development

Soft Skills: Problem Solving, Communication, Team Collaboration, Adaptability, Attention to Detail, Leadership
